Mr. Tom Bergman, Manager
Mountain Maid Mulch Plant
Fillmore, Utah 84631

Dear Tom:

Just a note concerning your mine reclamation, both at your lime mine and your perlite mine. I was at Utah State University last week and talked to Dr. Wm. F. Campbell. I explained our thoughts to him concerning your two mines and also told him about your soil problems. He indicated he would like to come down and put in several plots of some new range cover grass species. If this would be of some interest to you, please let me know and we will contact him and make a specific date for his coming to set out plots.

I think it would be very interesting and add to your information and mine too concerning ground cover for mine reclamation.

Sincerely,

Jim L. Bushnell
USU Extension Agent

JLB/uab
